			I think more details on 'the Neighbourhood Plan's' scope should be available so that people can comment and contribute democratically. The summary distributed of the 'Batheaston Vision Plan' was extremely subjective and made large assumptions about support from the village, clearly trying to put forward a particular agenda. Like the Scotland referendum, we should make sure people are asked a broad range of questions, not just ones which force people to narrow pre determined objectives. It would be great if we could contribute suggested questions. Democracy please, not lobbying of a particular agenda. Many thanks.
